# WILL SET BOYS

Mott-Smith to Enlist Youth of Honolulu in Warfare Against Pests.

UNIFORMS FOR INSPECTORS

Active Campaign to Be Launched About the Middle of This

Month.

If there was my thing monted to quinner of Humbirlin, President Motts Smills latter scheme will probably the stroke our and send the Hawalian night agains to the tall timbers. Mr. Marrison is a charleng of setting the

This is no julie, as the mosquiroes are tiable to find out when the halfformed whome is fully worked out. Mr. Mott Smith is really seriously considering unlisting the boys in the warfare against the midnight posts, and he figures that the boys of Honolulu and be of great assistance in clearing out the troublesome maranders.

"I have found," said Mr. Mott-Smith yesterday, "that the boys even now are frequently of considerable assistance to the sanitary inspectors. They often give the inspectors tips which can be followed out to advantage. The boys seem to know the whereabouts of every hole in town, and I believe that they could do more toward locating mosquito breeding places than could the men. I am seriously thinking of enlisting them in the work somehow. I don't know yet just how to go about it, but it has occurred to me that I might organize a boys! brigade, divided up into squads, and offer prizes or other remuneration to the squads making the best record in the way of assisting in the mosquito

"I don't know but it might be a good idea to have badges made for the boys, showing that they are a part of the forces engaged in the fight against mos quitoes. I am confident that if they were properly directed, they could do' a great deal of good avork. And I think they would enjoy it, too."

Active Work Soon,

Active work on the mosquito came paign will begin about February 15, though it may be nearly the end of the month before any oil is actually spread on the pools and other places where the pests breed. The city has been divided into districts, each of which is to be put in charge of one mosquito inspector. Over twenty oil centers have been located, where barrels of oil will be kept. The work of the inspectors will radiate from these centers. A driver has already been appointed; he 3 Sam Kenui Nakapaahu. The mosanito inspectors have not yet been chosen, but will be selected soon.

President Mott-Smith says he intends to put the mosquito men into uniform,-not the expensive uniform of the sanitary inspectors, but simply klaski, with a badge and uniform cap. The men will have to prowl about other people's premises more or less and Mr. Mott Smith does not want to have any of them arrested or shot as

The president of the board of health says he does not intend to let the men go out with oil until he is sure that they thoroughly understand the work they are to do, and just how it is to be done. A man is not supposed to rush into somebody's backyard and grease it up just for the sales of using the oil, He must knew what he is doing and why do is doing at. Alt. Mort Smit has accordingly instructed Doctor Pratt to give his mosquito men careful in

#### FRANCE'S SACRED TREE.

# THE GREATEST OIL FIELD IN THE WORLD THE NAVAJO OIL COMPANY

Owns 480 Acres of the Choicest Oil Lands in the Famous SAN JUAN OIL FIELD, Southeastern Utah, by far the Greatest Oil Field ever Discovered

EIGHTEEN WELLS HAVE BEEN DRILLED IN THIS FIELD TO DATE WITHOUT ONE SINGLE FAILURE. THE FIRST, AT A DEPTH OF 220 FEET, PRODUCED BY ACTUAL TEST 800 BARRELS PER DAY. THE CIL IS 38 DEGREES GRAVITY PARAFFINE, BASE WORTH \$3 PER BARREL AT THE WELL. IT IS THE BEST REFINING OIL IN THE COUNTRY

## SAN JUAN OIL FIELD

Has been examined by the greatest geologists and oil experts in the world. All agree that it is without question the greatest oil field ever discovered. The field is fifty miles wide by ninety miles in length. Eight oil sands are exposed, aggregating over 300 feet in thickness, thus giving assurance of large and continuous production. The formation is regular and unbroken free from faults and fractures. Our land is considered one of the choicest holdings in the field. We propose to develop it vigor ously by drilling a large number of wells.

#### This Is Your One Life Time Chance

To get in on the ground floor in a field that is going to make many millionaires. No doubt these statements seem exaggerated, but just read the following letter as to what Mr. Andrews the Klondike millionaire, has to say about this great field. Mr. Andrews has invested very heavy in the San Juan field.

> San Juan Oil Fields, Dec. 17, 1909. Mr. J. D. Crawford, Oakland, Cal.-Dear Sir:

I have been here five days and have looked the field over; that is, the part that is being worked at present, There are eighteen wells now and oil in all of them, and twelve more being put down now. They are from 220 to 1200 feet deep. The 1200 ones are through four sands and there is oil in all of them. They expect to cut the fifth sand any time and are going 2000 feet before they stop. There are five more rigs on the road now and there will be more. There is room for 1000, as it is a big field. As far as you can see the formation runs as true as a plane, with no fault in it. It is the greatest country I have ever seen and she is O. K. Will write more next time,

I am having the work done and will be back in San Francisco in twelve days. It is much better than I expected to find it and we will all make a lot of money. Well, I think this is all for this time. I could not tell you all in a week, so will close,

Yours truly,

(Signed) C. ANDREWS.

#### Just Look at the Men Who Will Look After the Company's Affairs

Charles N. Walter, Asst. Cashier, First Nalt. Bank, Oakland .... President

Judge E. M. Gibson, President Bank of Commerce, Oakland ... Treasurer

H. E. Petersen, E. M., mining and oil expert, Oakland.....V. P. and Mgr. Dr. Arthur H. Wallace, of Oakland..... Secretary

Walter A. Gompertd, merchant, Berkeley ..... Director

#### Did This Ever Occur to You?

Remember, you can not get rich by the sweat of your brow. You must make your savings work. Start today. Don't wait until some more opportune time. You can begin the foundation of a fortune on as small an amount as \$15,00. This may seem small, but we tell you, and can prove it, too, that less than One Hundred Dollars invested a few years ago in Oil made of the investor a millionaire. Do not say "I never had a chance," Perhaps you never had before, but you have now. Don't miss it.

#### Had You Been One of the Early Birds

- When oil was struck in Pennsylvania, Ohio, Indiana, Oklahoma, Texas, Kansas, and California, and had invested a few hundred dollars in any of these fields when oil was first struck-you would be independently

#### Don't Miss This Opportunity

Get in on the ground floor and be on of those who are going to make thousands from a small investment.

Oil is king and Navajo Oil Company's shares i the one best investment offered the public today. Our land is the choicest to be had anywhere. Our management is our pride.
